March Partner Webinar

Migrating from MPLS to SD-WAN: 2 Case Studies

Will SD-WAN completely replace MPLS or will hybrid solutions become the norm? That's the question we heard a lot at SD-WAN Expo last month. In this 30-minute webinar, we'll discuss key learnings from complete replacements performed for a multi-site commercial architecture firm and a nationwide technology company.

We'll cover topics that come into play, such as:

- Cloud vs premises-based server implications
- How to prepare your customer for a network forklift
- Setting proper customer expectations
- Benefits and cost savings

WEBINAR: Migrating from MPLS to SD-WAN: 2 Case Studies

DATE: Thursday, March 15

TIME: 10am PT / 1pm ET

Congrats to our 2017 SD-WAN Sales Contest Winner

MegaPath is proud to announce Agiliant Inc., an Intelisys Sales Partner, as the winner of the 2017 SD-WAN Sales Contest. The contest awarded the MegaPath (sub, alliance or referral) partner who had the highest MRC of all new deals including SD-WAN between Q2 and Q4 2017 with a dream trip to Pebble Beach or its \$10K cash value.

The Agiliant team, working with our West Coast Channel Sales Team, closed a 24-site deal that included SD-WAN Enterprise, a mix of Internet Access including Cable and Ethernet, and over 200 seats of Hosted Voice to take the prize. Congratulations Agiliant!
